

what we're teaching this month

Whether it's a rocket car powered by soda and mints or a tornado in a water bottle, there's so much in our world that can fill us with awe. The world of STEM is full of things that look like little miracles, but they're nothing compared to the miracles God can perform. In this four-week series, kids will take a look at some of the miracles that Jesus performed during his ministry. Through stories showing the power of Jesus, they'll no doubt go, Wow! **Jesus has the power to heal, to calm our fears, to provide, and to save.**
